## Today's Creative Minds . . . Tomorrow's Strong Leaders

We, the students at Hinds AHS, have a number of set goals. However, our major goal is to become strong, effective leaders with creative minds. The students here, at Hinds AHS, are pushing to seek, fulfill, and conquer many endeavors and to successfully overcome challenges. We are moving in the direction of becoming stronger and more creative in academics, athletics, liberal arts, and in all other aspects.

It is wonderful when you can look back to yesterday's memories and realize that these past times made us what we are today. We must always look back to our yesterdays and learn from those experiences to build a brighter tomorrow filled with initiative and enthusiasm. We must not forget that the "past molds our future."

With the sweltering heat reaching the triple digit margins, we began the school year with creative ideas and determinations, willing to face our future filled with challenge and controversy. Concentrating, with these conditions, seemed to be more difficult than adjusting to the new faculty, students, and objectives; but, without giving up, we endured to find ourselves moving onward toward our future goals, careers, and successes.

As you thumb through this book, you will see the inspirations, frustrations, achievements, defeats, admirations, and determinations that will help to make us strong world leaders. While browsing through this yearbook, we hope you will be guided through an exciting year of the new friends we made, the work we did, and the knowledge we obtained. With all of these things combined, it will transform us from *Today's Creative Minds* into *Tomorrow's Strong Leaders*.
